

## **CMA broadens Trade Hub connectivity with Bolsa de Colombia de Valores (BVC) Exchange trading through InterBolsa**

**June 3<sup>rd</sup>, 2010** – Bogotá (Colombia), Sao Paulo (Brazil), New York (USA) - CMA the leading market data, order management and connectivity provider of Latin American exchange trading furthers its access in every major Latin American market adding Colombia.

CMA Series 4 provides Bolsa de Valores Colombia Exchange (BVC) market data and order management applications. InterBolsa Colombia's leading broker dealer a Series 4 enabled trading firm has certified its systems to CMA Trade Hub. Through this connection local and international participants can access multi-market, multi-asset strategies, DMA (Direct Market Access) as well as high frequency electronic trading from all of the CMA Trade Hub countries on 5 continents.

"Over the last few years the Colombian markets have grown substantially due to the electronification of key parts of the trading infrastructure", says Mr. Andrés Uribe, Director of E-Trading for InterBolsa. "Through CMA's software and network, we provide our international clients the fastest and most complete set of tools to add as much value as possible to their experience with InterBolsa," Mr. Uribe concludes.

The financial markets in Colombia over the last 5 years continue to prove month over month volume growth coupled with recognizable value in cash equity markets and even higher within fixed income sectors.
